

I am unalterably opposed to any measure that makes it easier or permissable for businesses or non-profit organizations to contact me by phone in my home, place of business, or on my cell phone for advertising / sales / solicitation purposes. There are sufficient advertising alternatives to contact me. This is not a Federal decision, rather it is one that should be legislated as a State's Rights issue in bills similar to the Wisconsin No Call List.

Robert R. Ronk
